

Wilderness First Aid (WFA) and CPR/AED instructor course

**American
Red Cross**

Together, we can save a life

Finding a WFA course or a CPR/AED course has often been difficult. This new instructor course will provide the opportunity for you and your unit or council to remedy this problem. After completion of this course each participant will be certified as a WFA and CPR/AED instructor. Requirements include a current CPR/AED certification, and participants must be 18 years of age or older. It is also highly recommended that you have had a previous WFA course.

Course Dates

June 6-12 (Provided by the American Red Cross)

August 8-14 (Provided by The Emergency Care and Safety Institute)

To register, visit <https://myscouting.org>. Under the "Events" tab, click on "Event Registration", then "Philmont Training Center 2010 Conference Registration".
