

CAMP BALDWIN PATROL MENUS

Enclosed are menus to help you prepare each meal while you are at Camp Baldwin. Please read the instructions for each meal twice before you begin; it will help you understand the instructions better, and will result in a better dining experience.

Should you have any questions, please contact the commissary, or any member of the Baldwin staff.

PATROL DUTY ROSTER

A Patrol Duty Roster can make your camping experience better by allowing every member of the patrol to pitch in and help. This prevents confusion about who is supposed to do which camp chores.

To use this duty roster, fill in patrol members' names in the grid so that each member has at least one duty each day, rotating the duties so that everybody has a chance to do each job through the week. There is room to add more duties as needed.

Staple Box

Included in your staple box:

~ Menu Booklet	~ Aluminum Foil	~ Sugar
~ Bread	~ Juice Pitcher	~ Sanitation Tablets
~ Butter	~ Cutting Board	~ Oatmeal
~ Salt & Pepper	~ Paper Towels	~ Fresh Fruit
~ Trash Bag	~ Dunk Bag	
~ Ketchup	~ Dish Soap	
~ Cooking Oil	~ Scouring Pad	
~ Syrup	~ Punch Mix	

Should you need refills of any item, please ask at the commissary, or at the food truck when you pick up your food. Bring any empty container to exchange for a full container.

Wash hands before food preparation and before eating

It is very important that ALL cooks WASH THEIR HANDS THOROUGHLY before beginning any food preparation. Wash with soap and water, cleaning all fingers and nails. Also be sure that everyone washes their hands thoroughly before the meal is served.

Sanitation Tablets

These tablets are to be used for dish washing. The correct amount to use is **ONE** Tablet in black bucket while boiling dishwater. Do not use more than this amount, or sickness may result.

Proper dish washing procedures

The correct dish washing method is the 'three sink method,' which means that there are three 'sinks' of water used:

First: Warm water with dish washing soap

Second: Warm rinse water.

Third: Hot water for sanitizing.

To wash dishes, set out three wash-basins. Fill the first two about 1/2 full and the third full with sanitized boiling water. Add dish soap and cold water to the first basin until comfortable to touch; add cold water only to the second basin until comfortable to touch, and add nothing to the third basin.

Wash each dish in the soap water, rinse fully in the second tub, and dip fully in the third tub.

All dishes should be AIR-DRIED, not toweled off.
Put utensils in the mesh dunk bag and hang to dry.

Storing Food in Camp

Any perishable food stored in camp should be kept in the provided cooler on ice. Milk and meats should not be stored more than a few hours. Keep the cooler in the shade so the ice lasts longer. You may get more ice on the food truck or at the commissary.
